Matching wall lights to chandeliers

Inspired by classical chandeliers which were originally designed to hold a number of candles, Diffuse have established their own versions. Tiered chandeliers are created from hand-crafted suspended tiles made in Diffuse's signature material – an exclusive formulation of fine natural porcelain, which sheds a functional but warm and flattering light.

Beginning with bespoke models which are to be seen illuminating high profile interiors including ballrooms, spas and other public areas, Diffuse have now developed smaller editions for smaller interior locations which are available from stock. A matching wall-light is now available in the same matt finish porcelain.

The two tier Drum chandelier comprises 58 suspended tiles, each measuring H:20 cm x W:6 cm. It is supplied with an internal diffuser, luminaries and suspension kit and is lit by 3 bulbs. The overall dimensions are H:35 cm x D:50 cm and the chandelier costs £ 838.95 including VAT.

The harmonizing Drum Wall Light has a single row of 9 suspended translucent tiles created from fine natural porcelain, each measuring H: 19 cm x W: 3 cm This holds one bulb which casts a warm light through the tiles with a clear light across the wall above and below the fitting. The overall dimensions are H:19 cm x W:15 cm The Drum Wall Light costs £ 176.25 inc. VAT each, and can be ordered from stock.

Whilst both can be used, either together or separately, in a variety of interior locations, to blend with traditional or contemporary style, the combination of these two 'off the peg' designs creates an ideal ambience in the dining room.
