## Porcelain Chandeliers from Diffuse are in great demand

The fine natural matt porcelain - the signature material of all Diffuse lighting - creates a unique environment: a warm, soft, relaxing light.

The special formulation and creative use of porcelain give a paper-like translucence to the pendants, chandeliers and table lights which are in reality heat resistant, washable and long lasting – qualities and designs much in demand in the UK and overseas. Gourmet dining areas, clubs, health spas, grand ballrooms, atriums and boutiques are types of interiors where designers are specifying Diffuse products ranging from huge chandeliers to individual table lamps and bedside

pendants.

Founded in 1998, the Diffuse Studio now works closely on Bespoke projects with interior designers and architects whilst

discerning homemakers have discovered the ranges through selected retailers and the website [www.diffuse.co.uk](http://www.diffuse.co.uk).

Nuage is a modern interpretation of the traditional chandelier. Designed to hang above the dining table, Nuage is oval in shape with an undulating circumference: it consists of 70 overlapping suspended handmade tiles in fine linen textured porcelain, each measuring 30cm high x 4cm wide. The overall size of Nuage is 1m. long x 30cm at the centre, the widest point. RRP is £1024.60 inc. VAT. Delivery time 4 weeks.

Drum Wall light is also new, designed to harmonize with all Diffuse chandeliers, it has a row of 9 suspended translucent porcelain tiles, each measuring 19 cm high x 3 cm wide. This fitting takes one bulb which casts a warm light through the tiles with a clear light across the wall above and below the fitting. The overall dimensions are 19 cm high x 15 cm wide, the Drum Wall Light costs £176.25 inc. VAT each, and can be ordered from stock.

All models can be viewed and ordered on-line at [www.diffuse.co.uk](http://www.diffuse.co.uk) or call 01462 638331 to discuss requirements.
